Good morning,

The Department has reviewed eDMR submissions for the Hanover Foods IWTP and it appears that Hanover Foods has maintained six (6) consecutive months of NPDES Permit final effluent limit compliance.

Therefore, Hanover Foods Corporation has met the requirements agreed upon in Paragraph 19 (Termination) of the July 1, 2017 Consent Order and Agreement.

This termination will become effective ten (10) calendar days from the date of this email, unless you provide a written response objecting to the termination.

Thank you,

Erick
